## Why use CIC Compare?

- With a whole of market view, compare over 145 conditions based on quality of provider definitions and statistical risk
- Robust comparison reports within 5 minutes
- Unique scoring methodology and simple traffic light system that helps you scan results at a glance and see more detailed definitions
- Inform better client outcomes with reliable and transparent insight

Here's an example of a report generated through CIC Compare, using the simple traffic light system.

Condition	Existing Cover	Proposed Cover
Cancer (advanced)	58	61
Ductal Carcinoma in Situ (DCIS)	Not covered	82
Multiple Sclerosis	76	87
Stroke	54	87
Children's Critical Illness	51	81

The simple traffic light scoring system represents the:

- level of cover provided by the extent of the cover
- combined with the likelihood of the policyholder being able to make a claim based on the policy wording
- using the robust CIC Compare scoring methodology.

CIC Compare can be purchased individually or added to your Defaqto Engage licence for an additional fee.
